COSC 205 Lab 1

Team: Arrested Developers: Kevin Ngkaion, Tuscun McFarlan, Tzu Ai Shen, Dake Wang
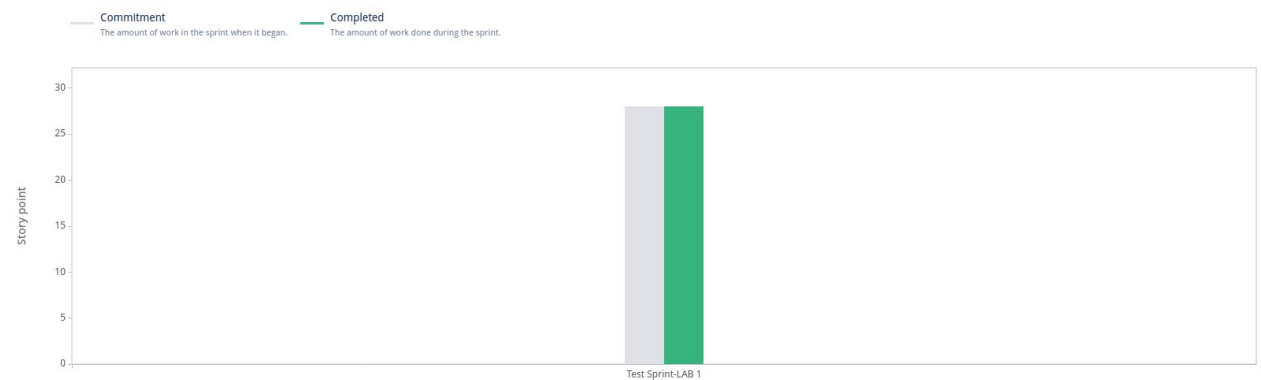

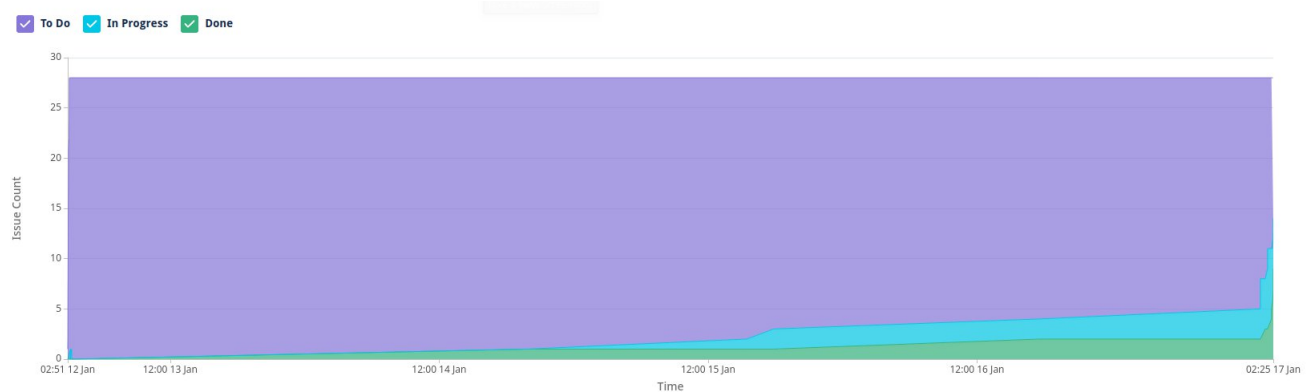

Jan 17, 2023

Burndown Chart

There is a sharp drop in the remaining work chart because we completed all the tasks in one day.

Velocity Chart

The two columns of the bar chart are the same height because we were able to complete all the tasks that were assigned during the sprint.

Cumulative Chart

The purple (to-do) area takes up most the graph because we left most of the tasks until the very last day before we started and completed the tasks.
